Great Britain.

Great Britain.

The Times of Sept. 29th, in an article on

San Juan, says:

The Island of San Juan has been seized and taken from the possession of the Hudson Bay Company, under the pretence of protecting American's tilers from the attacks of the Indians. We have no hesitation in saying that a more gross and wholly unjustifiable outrage than the recent act or General Harney was never committed upon the sovereignty and dignity of a friendly Power. The insolence of the proceeding is truly astonishing. * It is with no wish to sow dissension between kindred nations, or to be wanting in that courtesy which characterises modern politics, that we express a hope that on this question the Government of Great Britain will be found true to itself, and to those hardy and trusting adventurers who, under the supposed protection of the British flag, have spread themselves over the globe. * * Both Vancouver Island and British Columbia had better be given up if we part with San Juan; for a fortification on this Island would command our western passage to Fraser river. The Americans calculate too much and too constantly upon the forbearance of England. We trust that this dispute, like so many others which have preceded it, will be, settled by diplomacy; fi, unfortunately, the result should be otherwise, we equally trust that England will take every step, to vindicate the national honor and dignity, and to show that not a foot of ner territory shall be filched from her, San Juan, says:
The Island of San Juan has been seized

either to gratify American cupidity, or to appease American blustic. Our trans-Atlantic cousins had better watch the progress of Rossian power in the Pacific than quarrel with their best friends and best customers—the people of England. * * * * * There may be something radically wrong in the relation which the colonies of this country bear to the parent State. They may be suckers and not feeders, as alleged by more than one disciple of the Manchester school. There may be no reason why we, the inhabitants of an island on the north-western shores of Europe, should trouble ourselves with the concerns of a few islets at the distance of so many thousand miles: but as long as we pretend to the supremacy over a great empire—as long as Canada and Oregon and British Columbia look up to the protection of our fleets and armies—as long as we send out governors and secretaries, generals and regiments—so long are we bound to support the national dignity on the shores of the Pacific as much as if the French Emperor had declared war against us, and were fighting for the leadership of Europe.

It was rumored that Government was disposed to reconsider the recent decision postponing the establishment of the new mail service to Australia and Panama.

VICTORIA, VANCOUVER ISLAND.

Saturday Morning, December 3, 1859.

The Weekly British Colonist.

We issue at neon to-day, the first number of THE WEEKLY BRITISH COLONIST, CONtaining all the editorials of the Tri-Weekly. the local intelligence of the week, a sum-mary of Foreign news, and the entire Lists of Registered Voters.

Hudson Bay Company Candidates.

A mere glance at the lists of voters will convince the most incredulous that the Hudson Bay Company have strained every nerve to register their whole strength. Were they merely a political party, this marshalling of their forces for a struggle for power would present an entirely different aspect As it is, the object is to control the government, to benefit their own exchequer. With this mercenary object in view, no stone will be left unturned to secure, if possible, the return of men to the Assembly favorable to their interests. Knowing the unpopularity of their paid agents, their game is to deceive the country by bringing forward candidates professing to be reformers, but who, the moment that they are installed in power, will do the bidding of their masters. Constitutionally, the Government is entirely distinct from the Company; but actually, the Company is the Government. The Governor is taken from them, and has supported their illegal claims. And if the recent imbroglic in relation to rations between him and them is correctly stated, the connection is not yet entirely dissolved, although it may be represented to the contrary at the Colonial Office.
The members of the Legislative Council wear their livery, receive their pay, and do their bidding. The majority in the Assembly is made up of their material. With the wrongs inflicted on the country heretofore by a government composed of the paid agents of a monopoly, what else can be expected but the perpetuation of those wrongs in case their agents are returned. It is idle to expect a paid servant to act an indepen-dent part, even if willing. Their bread depends on their subservience, and no reasonable man expects them to do justice to the country. Like the boy at school who said he would not be taught, so they will not be

taught to do right. When the new Assembly is convened, one of the most important duties devolving on them will be to thoroughly investigate the affairs of the Colony. Will it, therefore, be desirable to place that power in the hands of men whose interest and duty as paid servants will be to do the best for their employers? If they have written down the charges in the Company's books, they will vote for their payment, without a question. But were they independent men, every item would be narrowly inspected, and except it was clearly shown that they had a lawful claim, it would be promptly rejected. The magnitude of the sums alleged to be due to the Company for the support of the civil and mili ary departments of the government is enormous. Hence the greater necessity for opposing the election of any candidate who is a servant of the Company, or a lipreformer. As the country will have to hear the burden, it should be careful to select none for candidates but those whose antecedents and consections prove them inde-pendent; men who will claim nothing of the Company but what is the country's due, nor give anything to the Company but what

is justly their doe. In 1856 the returns to the House of Commons showed a debt of £87,000 for bringing out miners to Nanaimo, and for improve-ments there. This sum they expect to be paid when the grant of the island is revoked, although the men came out under contract as servants, and the works were conducted as an or linary speculation! Since that period a debt of over \$1,000,000 has been trumped up against the country, for what no one knows. The streets have been macadamized from the license fund, and the roads and bridges made from the land fund. Was it in consequence of the groundlessness of these enormous claims that his Excellency refused to lay before the Assembly the returns of revenue and expenditures? If he shrinks from bringing the finances of the colony where they can be scrutinized by the public, what can be expected of the poorly paid servants of the Company were they slected to the Assembly? Is wnot manifest that these accounts- which are made up here nd forwarded to Fenchurch street—win nouse, lot, and piece of personal property in Nov. 19, for this port.

the country, will be held liable to pay? man in his sober senses, would allow an in-terested party in private transactions, to have the sole say as to his indebtedness. Will any different policy then be permitted as regards public transactions? Has not the Company the Governor as their eulogist and supporter in his dispatches to the Colon'al Office? Is not the Courcil composed of their agents? Will the country then be so blind to their own interests as to allow the Assembly to be filled with their agents either openly or in disguise ? Already votes have been bargained for and money paid. Are there not candidates who have their price ! Has not the offer been made to qualify candidates? It has; and some have re jected it with disdain, whilst others have accepted. Such then is a part of the scheme by which it is intended to undermine the

Reform party.
Some professional and non-professional candidates are linked to the Company: sold for a sop, either place or profit. Were such men elected,—were they called to investi-gate the claim of the Company to the townsite, as partners they would divide the spoil,—and thereby defraud the treasury of nearly \$500,000. No title to the town-site is vested in the Company other than the grant of the Island. All they are entitled to out of the proceeds of the town is a tenth of the sales. But let the complexion of the Assembly be Hudson's Bay, and instead of a large surplus in the Treasury to liquidate our legal indebtedness, improve the harbor, and benefit the country generally, nothing but insolvency will stare the country in the tace, with the tax collector at every man's

It is an old scriptural adage:—" No man can serve two masters. He will hate the one and love the other." A man cannot serve the Hudson's Bay Company and the public in the Assembly. No man can serve British Columbia and Vancouver Island at the same The interest of one or other will suffer in the attempt. The magnitude of the questions at stake, demand the election men who are independent of the Company in every way. And the dependence of this colony on British Columbia, points as plainly to the principle of confining her officials to that colony, as the needle unerringly points to the pole.

MAN MISSING.—Our attention has been called to the fact of an old man named Jack Phillips, a gardener, who has been missing for some time past. He is an old resident, and has been working for Mr. E Vines of Pidder Bay. He left there for Rocky Point, and the last that has been seen of him was when on his way back Being subject to intoxication, it is that he may have been under the influence of I quor, and strayed into the woods, and perished. Others are afraid that he may perished. have been killed by the Indians. In either case, search ought to be made for his body. And if it should be discovered that he ha been murdered by the Indians, measures should be promptly taken to arrest the perpetrators. Allow them once to taste human blood without an attempt to arrest, or to dea out condign punishment, and impunity will tempt them to repeat it. Besides the set-tlers in that district are few and scattered, the road to Sooke a mere trail, without inhabitants, and danger from Indians is, therefore, apprehended, and will be till an investigation is made.

Inquiry has been made why an investigation into the causes of the explosion of the steamer Caledonia has not taken We are confident no blame can be place. attached to the Captain or Engineer. There is a principle involved, however, which should not be lost sight of, that is, to investigate such accidents and thereby guard

We understand that the Dashaways association intend opening their room every evening, for the accommodation of the members and their friends. A CARD.

VICTORIA, 29th Nov. 1859.

To Mr. Thomas Harris, Butcher, Victoria.

Dear Sire:—I am truly sorry that any report should have been circulated (relative to my cattle) prejudicial to your character in any way whatever, as it is evident, and was clearly shown, that the two cattle were delivered by Mr. Williams to your men, he (Mr Williams) having mistaken them for the cattle of Wm. Kohl, and which cattle I knew you had purchased before the said Kohl left Victoria.

In justice therefore to yourself as a respectable trudesman, and on behalf of myself and many friends I will hereby publicly to inform you that in all our land they have been many—we have found you concet and upright in all your transactions, and therefore wish you every success in your business.

Believe me to remain yours most respectfully, deel-2.

Arrival of the Pacific.

The California Steam Navigation Company's steamship Pacific, Captain Patterson arrived yesterday morning with San Francisco dates to Nov. 24, bringing five days' later news than the Panama via Oregon.

The Northerner experienced terrific weather on the way down; became short of coal, and ran into the Columbia River. She arrived at San Francisco on the 20th ult., 10 days from here. Her detention in con-nection with the non-arrival of the Cortez from Panama, with the mails and passen-gers of the North Star, from New York, caused considerable alarm. Some accident on the Atlantic side is presumed to be the cause of the non-arrival of the Cortez. The Sierra Nevada is being repaired prior to going to Panama for the mails and passengers which left New York on Nov. 5th. The Pacific M. S. S. Company forced Garrison to pay \$10,000 for carrying the mails last trip, as he had no steamer ready to go. weather at San Francisco for nearly the whole of the last month has been rainy and

The trial of Brown the leader of the insurrection at Harper's Ferry at Charleston Va., was in progress.

The evidence was concluded, and the argument of counsel.

A treaty had been concluded between Spain and Mexico, by which the latter agrees to satisfy all the claims of the former and recognize all treaties between the two countries.

The S. F. Heralds says that Gen. Scott received from Gov Douglas such assurances of inaction as to justify the withdrawal from San Juan of the troops with the exception of those who were barely sufficient for the armed occupation of the island and the protection of the inhabitants against Indian incursions.

A great riot had occurred at Baltimore on the 2nd Nov. Many lives were lost. The organization of a Vigilance Committee was

expected.
It is altogether probable, that in one way or another—either by resignation, recall, or transfer—Gen. Harney will soon leave the Pacific coast, much to the relief of the army generally, in which he is exceedingly unpopular—S. F. Bulletin.

The dates from Liverpool are to October 19th.

The treaty of peace between France and Austria was signed Oct. 17th.

The Paris correspondent of the London Times states that in addition to the five great powers. Sardinia, Spain, Sweden, and Portugal. Naples and Rome will be represented in the European Congress.

It is stated that the treaty between France and Sardinia would be signed subsequently.

The Great Eastern remained at Holyhead. Prince Albert visited the ship on the 17th, during the sojourn of the royal family at Bangor, but the Queen did not accompany him. The reports as to her proposed visit to America are indefinite, but a meeting of the directors was to be

held on the 18th, when it was thought the final arrangements would be made.

A report is current of apploaching changes in the French Ministry.

Morocco has tendered all the satisfaction demanded by Spain:

The London Times says the terms of the Zurich treaty are almost identical with those agreed upon at Villa Franca.

The rumor that France demands three of hundred millions of francs from Piedmont, as a war indemnity, is pronounced false; she claims only a reimbursement of sixty millions advanced that Government for arms and provisions.

It was reported that the Archbishop of Bordeaux will visit Rome to press on the Pope the necessity for reform.

It is also asserted that France will not recall her troops from Rome until the form of government there renders their presence to longer necessary.

It is asserted that the Pope, in concert with Napoleon, is about addressing a manifesto to the States of the Church.

Great activity prevailed in the Naples arsenals, and the army was being placed on a war footing.

Letters by 4the China mail confirm the favorable reception of the American Minister at Pekin. The steamer Mississippi was at Shanghae, the Powhatten in the Gulf of Peechli, and the Germantown at Japan.

FURTHER TRIAL OF THE GREAT EASTERN.—The Great Eastern steamship left Portland (Eng.) at 4 o'clock P. M. of October 8th, and anchored at Holyhead at 4 o'clock on Monday afternoon, the 10th.—The distance run in 48 hours is computed at something over 550 miles. The average speed for the whole trip was little more than thicteen knots, but daring the greater part of the trip the engines were not run over half speed. The paddles averaged ten and the screw thirty-eight revolutions per minute, working at a pressure of twenty pounds of steam. The greatest speed attained was fourteen and a half knots of nearly seventeen miles perhour. This was accomplished without special exertions by the engines. But there was considerable canvas spread.

This performance showed moderate speed. There were doubts expressed of her being dispatched on the proposed American trip this season.
